DETAILED ACTION

Claim Rejections - 35 USC § 102

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000.

Art Unit: 3747

Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 11, 12, 16-24 and 26-30 are rejected under 35 U.S.C. 102(b) as being anticipated by Nakakita et al. Note Figures 1, 4 and 7 and column 9, line 28 through column 10, line 39.

Claims 11-15, 18-25 and 27-30 are rejected under 35 U.S.C. 102 (e) as being anticipated by Kataoka et al. Note Figure 3.

Claims 11, 12, 16-24 and 26-30 are rejected under 35 U.S.C. 102(e) as being anticipated by Quigley et al. Note Figures 2 and 4 and paragraphs 0016-0019.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references of Onc et al and Chmela et al are cited to show direct injection engines with pistons having recesses with raised portions.
